

Financial Literacy: New Zealand Curriculum

Q: How can you empower your students with the skills, knowledge and dispositions to enable them to make well informed financial decisions now and through-out their lives?

A: By integrating the **Financial Capabilities*** into your existing school curriculum

Half or full day options

9:30am – 12:30 pm

or

9:30am – 3:30pm

(Local venues in your area
To be confirmed)

*Previous workshop
participants' respond:*

"An amazing number of resources
and so relevant to today's world"
(Hamilton Secondary Teacher)

"A very relevant and valuable
workshop, great to have the time
to explore TKI and explore the
online financial resources"
(Tauranga Primary Teacher)

"That was the most practical and
useful PD I have had – these are
the skills all students NEED to
have – from Year 1 to when they
leave school. It is fantastic that all
the resources needed are there
for us. All we need to do is to
weave them into our planning
and teaching. THANK YOU!"
(Intermediate School Teacher)
