

Where are we now and where do we want to be with E4E?

Where are we now and where do we want to be using Education for Enterprise as a context for developing school curriculum?

Where we are now	Where do we want to be?	By when?
What does our school vision say about making our students enterprising?		
How do our school goals support Education for Enterprise?		
How does our strategic plan support Education for Enterprise?		
What evidence have we got of how our students are developing the enterprising attributes ?
