

# Curriculum Scan

Use this template to scan what is already happening and what might need to happen to support an Education for Enterprise approach to your school curriculum.

	Yes	No
Is Education for Enterprise a context in our teaching and learning programmes at all levels of the curriculum?		
Does our school have the resources to support Education for Enterprise across the curriculum?		
Do the teaching and learning resources our teachers are using on Education for Enterprise, support the development of enterprising attributes?		
Are teachers aware of where to go for resources that will support Education for Enterprise including web resources?		
Do our teachers have the professional learning opportunities to expand their knowledge and understanding about Education for Enterprise?		
Are there opportunities for our students to interact with the community and business?		
Do we encourage our students to have input into planning and implementing activities that have an Education for Enterprise context?		
Are external community resources (people, businesses, religious gathering places) used to support Education for Enterprise in the curriculum?
