# Upper Harbour Primary School Financial Literacy Overview

## Cluster Goals

1. Improving financial fluency for students.
2. Improving financial fluency for teachers.

## Learning Intention

We are learning to introduce financial literacy into the classroom through teacher directed activities.

## Teacher Success Criteria:

- I investigated ways to support my learners so they can access, critically evaluate and use financial information.
- I began to use financial literacy to support learners across the curriculum learning areas.
- I managed the use of financial literacy in my classroom, giving limited student choice.

## Student Success Criteria:

- In our class, we sometimes used financial literacy.
- In my class, activities involving financial literacy are managed by the teacher.
