

FOCUSING THE INQUIRY ON STUDENTS NOT MEETING THE EXPECTED LEVEL

Identify Year 2 students not making expected progress. Considering the best fit standard, identify these students' strengths, needs, and next steps for learning, e.g., Hemi is one of a group of students who have been in Year 2 for two terms and their progress most closely matches the standard *after one year at school*. What do you need to plan in order to accelerate Hemi's and this group of students' progress to meet the *after two years at school* standard?

CURRICULUM LEVELS

IDENTIFY BEST FIT STANDARD

YEAR LEVELS

After two years at school, students will be achieving at Level 1 in the mathematics and statistics learning area of The New Zealand Curriculum.

Using the information on Page 1:

FOCUSING THE INQUIRY ON STUDENTS NOT MEETING THE EXPECTED LEVEL

- Confirm best fit mathematics standard and the next steps for the focus students;
- Identify and investigate what is important (and, therefore, worth spending time on), given where my students are at;
- Refer to relevant strategies and resources.
